

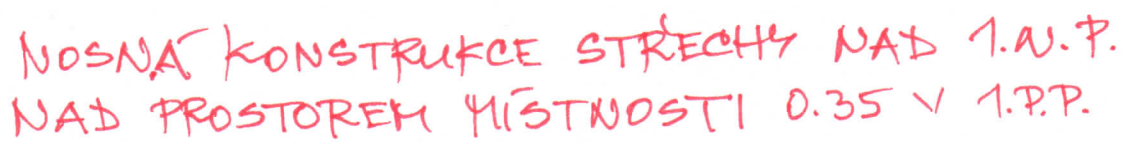

Diagram illustrating the cross-section of a reinforced concrete slab supported by steel beams (IPE140).

- Slab material: **BETON C16/20**
- Slab thickness: **400** mm (with a 30 mm layer at the bottom)
- Supports: **IPE140** steel beams
- Beam spacing: **~ 1000** mm
- Dimension: **1955** mm (height from beam bottom to slab top)
- Beam specification: **PLECH VS2 10 001, 11M2, 102kg**
- Reinforcement: **VĚZYUŠE ØRC V KAŽDÉ 2. VLNĚ PLECHU 55MB; 12,2kg**
