_____ **LEHRER: GRIFFITHSON**

A diagram of a linked list with seven nodes labeled C.3.1 through C.3.7. The nodes are arranged in a slightly descending diagonal line from left to right. Each node is represented as a rectangle divided into two parts: the left part contains the node label, and the right part contains a pointer to the next node. The pointer for C.3.1 points to C.3.2, C.3.2 points to C.3.3, C.3.3 points to C.3.4, C.3.4 points to C.3.5, C.3.5 points to C.3.6, and C.3.6 points to C.3.7. The node C.3.4 and its pointer field are highlighted with a red border.
