PAS

Technical drawing of an L-shaped profile. The vertical leg has a height of 667 mm, with a total height of 696 mm including a 70 mm base. The horizontal leg has a width of 420 mm, with a total width of 490 mm including an 80 mm base. The drawing includes dimension lines and arrows indicating the measurements.

Technical drawing of a T-shaped cross-section. The vertical stem has a total height of 610 mm, with a section cut indicated at 540 mm. The horizontal base has a total width of 440 mm, composed of a 120 mm section on the left, a 70 mm section in the middle, and a 250 mm section on the right. A 70 mm dimension is also shown for the height of the base from the bottom edge.

Technical drawing of a T-shaped cross-section. The vertical stem has a height of 337 mm and a width of 50 mm. The horizontal flange has a total width of 290 mm, with a central section of 180 mm and two side sections of 60 mm each. The flange thickness is 50 mm. The overall height of the section is 387 mm.

Technical drawing of a T-shaped cross-section. The vertical stem has a total height of 212 units and a width of 50 units. The horizontal base has a total width of 210 units and a height of 50 units. The flange extends 100 units on each side of the stem's centerline.
